

POWER FOR GOOD

Anti-Bullying Week 2025 - Key Stage 2

In this short PowerPoint session, you will explore with the children:

- What bullying is and bullying definitions
- What our *powers for good* actions can do to help stop bullying and identify what *power for good* actions will help other people when we see bullying happen.
- The focus will be on *power for good* actions and will give the class an opportunity to consider how we can 'not like someone' in a nice way.

WHEN TO RUN THIS?

The PowerPoint can be delivered at any time of the day or week. We recommend facilitating this at the beginning of anti-bullying week. This will give the children an opportunity to practise the learning in the playground during the remainder of the week.

HOW LONG WILL THIS TAKE?

The PowerPoint for the class will take between 5-10 minutes
(Depending on how much interaction and discussion you encourage with the children.)

WHAT PREPARATION DO WE NEED?

No prep needed, simply run the power point.

DURING ANTI-BULLYING WEEK:

Please remind the class to notice any power for good that they see or notice how others feel when they action their powers for good.

AT THE END OF THE WEEK:

Reflect with the children on the process and ask them to share the difference they might have seen or experienced.

Have they been able to 'not like someone' in a nice way?

OPTIONAL:

- Print out the super hero poster and create a wall display.
- Have post it notes and pens available and ask the class to add power for good actions.
- Create a wall display for How to 'not like someone' in a nice way.
